

How much does it cost?

This varies by company, but not as much as you might think. \$10 to \$20 per \$1,000 per year.

When should I worry about media?

Media has minimal / no coverage on most personal auto policies. It doesn't matter if it is cloud based, on your smart phone, on CDs or DVDs, media has little or no coverage included free.

Customized Auto Coverage Personal Auto Policy

What is free or included at no extra charge?

The equipment that comes installed, direct from the manufacturer is covered and included free. Look at a new vehicle window sticker and all the extras that have been added are covered free.

Other than Collision, (OTC) formerly called comprehensive (CM) and Collision (CL) must be on the specified vehicle.

A base amount of custom equipment is included with most personal auto policies. TRICOR represents many companies, and some include more coverage free than others. The free or base coverage might range from \$500 to \$2,000.

Add custom equipment coverage on the personal auto policy to cover the following:

- Running boards
- Custom wheels and hub caps
- Toppers, Tonneau covers
- Bed liners
- Tool boxes
- Bumpers and bumper guards
- Customized exhaust
- Custom painting, decals & pin stripes, accent panels
- Light groups, interior and exterior
- Fenders and side panels
- Custom power train, and engine
- Custom brakes and suspension
- Custom sound system and other electronic equipment
- Media that has possibility of being corrupted, lost, stolen or otherwise destroyed accidentally. Don't insure if you have fool proof backup.
- Hood and trunk scoops
- If it is not included from the manufacturer, add it on.

We can quote an additional six companies with the information you provided.

*Renters insurance, we must quote for you. The price will often be from \$50 to \$150 annually, depending on discounts you are eligible to receive.
