Should I buy this? Should I spend the \$5.00 monthly or \$60 annually,

If you rent private passenger type autos when traveling and don't want to pay the \$20 plus per day for the rental car insurance from the rental agency.... then buy this. Identity theft restoration service is also a nice built in valuable included coverage. The rest of the options get triggered in a car accident or vehicle theft.

Does my Auto Owners auto policy have the rental vehicle insurance I need so I don't have to buy it at the rental company? Read and save this link, or contact us with your question, we are here to help.
