

INTEGRITY ID THEFT

Get peace of mind if your identity is stolen.

There are 12.7 million victims of identity fraud every year.* Whether you're shopping online or using a credit card, the digital age has made everyone a potential target of ID theft. You may have a company monitoring your identity, but if your identity is stolen, many of these companies may not help you with the additional expenses incurred when you're trying to restore your identity.

We've partnered with CyberScout™ to provide restoration services, along with identity theft coverage that helps pay for expenses incurred from identity theft. This includes lost wages and costs required to repair any damage done to your reputation – all for as little as \$10 a year added to your home or auto policy. Without ID Theft coverage, you could be footing the bill yourself.
