

Rental Car Reimbursement

What is rental car reimbursement coverage?

- It pays your rental car costs while your car is being repaired as a result of a covered claim.

How does it pay?

- If you rent a car daily it pays up to the daily maximum limit. If you rent a car for a week, it pays up to seven times the daily maximum limit. If the actual cost is less, it pays the lesser amount.
- **Example:**
\$30.00 per day with a maximum of \$900 is a common limit purchased.
\$40.00 per day with a maximum of \$1200 is a common limit purchased.

If you need a temporary auto for one week and the weekly rental is less than \$240.00, including all fees, then \$30.00 per day would be adequate. If you only need a vehicle for two days and the cost is \$40 per day, \$30 per day would mean you must pay \$20 of the \$80.

What is not covered?

- Rental car companies may include a specific number of miles per day free or they may have unlimited mileage per day. If you choose a company that charges mileage in addition to a daily rental charge, this could exceed the daily maximum limit when both are added together.
- The rental company will ask you if you want to purchase [rental car insurance](#). This choice is yours. The additional cost may be as much as \$20 per day. Your TRICOR agent can assist you at any time with this decision.
