

## Road Side Assistance

### Why include this in your policy?

- One 800#. You can call from anywhere in the USA – 24/7.
- You save! Road side service has negotiated tow truck pricing in advance.
- The companies they contract with are reputable.

### What is covered with Road Side Assistance?

- Flat tire and tire change
- Vehicle stuck in mud or snow.
- Battery Jump start
- Emergency fuel
- trip charge for replacement hose or belt
- Tow charge up to limit purchased when field repairs can't solve issue.
- Keys locked in vehicle.

### Recommendations

- The smallest limit you should buy is \$100.  
This in most instances with the negotiated pricing can transport you and your vehicle to a nearby repair service that can fix your issue, five to fifteen miles transport one way.
- Do you want to be towed/delivered home instead of to the closest repair shop?  
The amount of insurance needed to tow you and your vehicle home from a distance of up to fifty miles might be close to \$250. If this is what you want, you can pay the difference yourself or increase your road side assistance limit to \$250 or \$500. The added cost is probably about double what the \$100 benefit costs.
